

Notes for Q4 2015 report roundup

This data also supports a simple public textual representation that most of our forecast errors have been under 10%.

All material draft copyright 2015 MW&A www.abeqas.com

This was the original outcome I posted early last year. Now that I've added streams I've also added more to this quarter and year so I really start with next slide

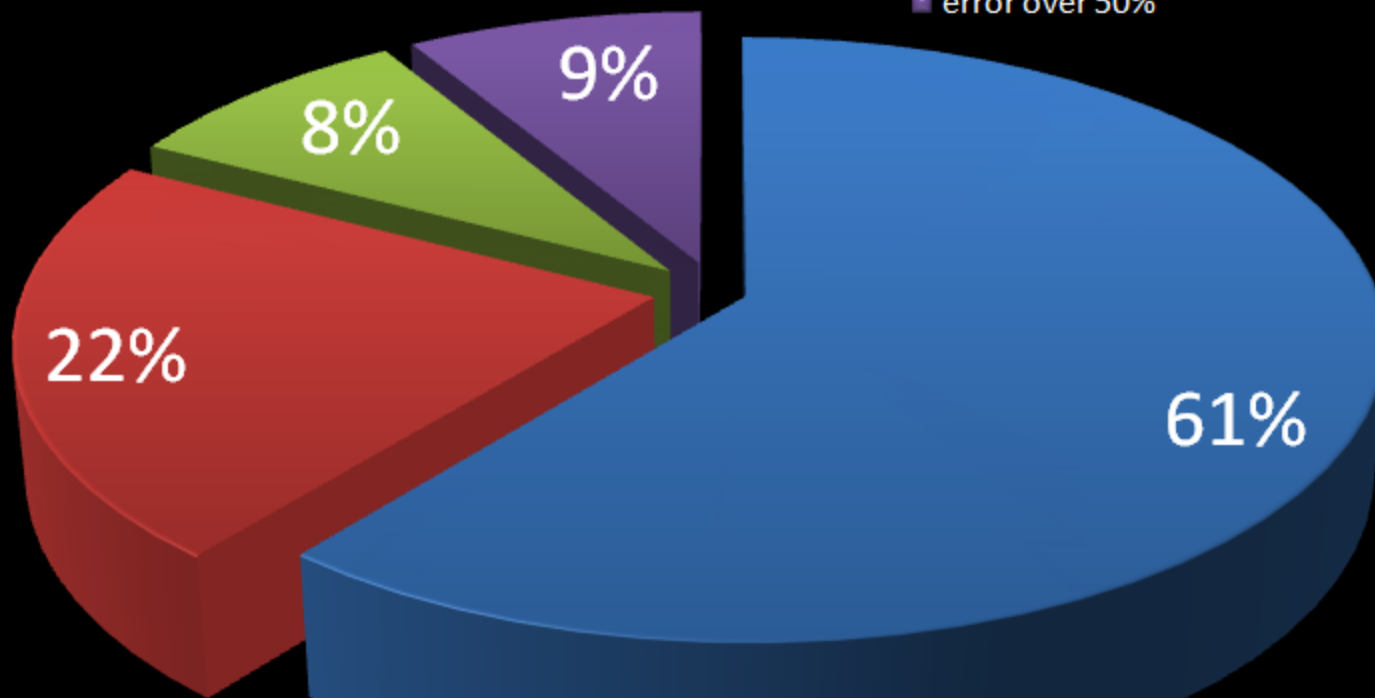

PERFORMANCE OF MW&A STREAM FLOW (10 YTA)

FORECAST EXERCISES (SKILL)

3 methods, 12 stream gages, 32 total forecasts

TARGET Q4 2013

- error under 10%
- error over 10% but under 25%
- error over 25% but under 50%
- error over 50%

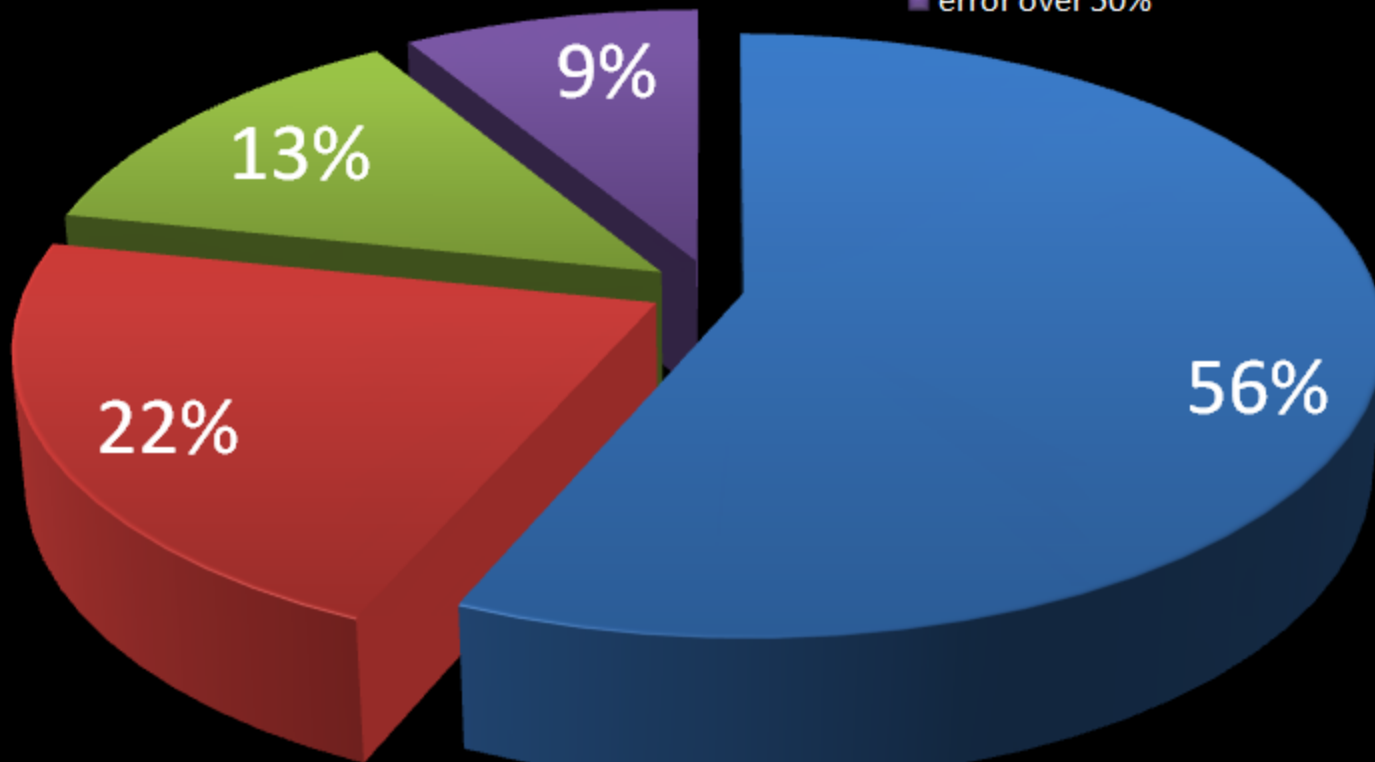

PERFORMANCE OF MW&A STREAM FLOW (10 YTA)

FORECAST EXERCISES (SKILL)

2 methods, 12 stream gages, 23 total forecasts

TARGET Q1 2014

- error under 10%
- error over 10% but under 25%
- error over 25% but under 50%
- error over 50%

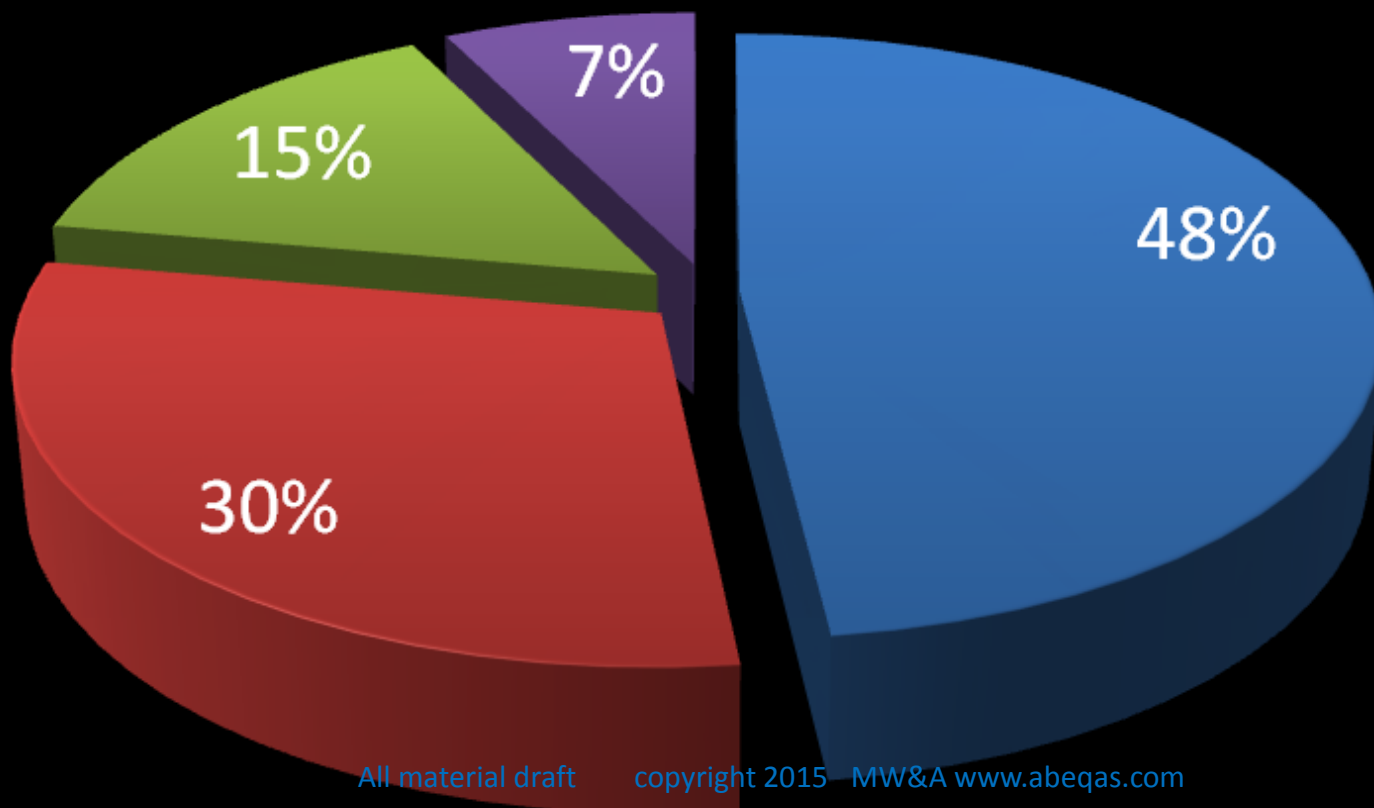

PERFORMANCE OF MW&A STREAM FLOW (10 YTA)

FORECAST EXERCISES (SKILL)

2 methods, 14 stream gages, 27 total forecasts

TARGET Q2 2014

- error under 10%
- error over 10% but under 25%
- error over 25% but under 50%
- error over 50%

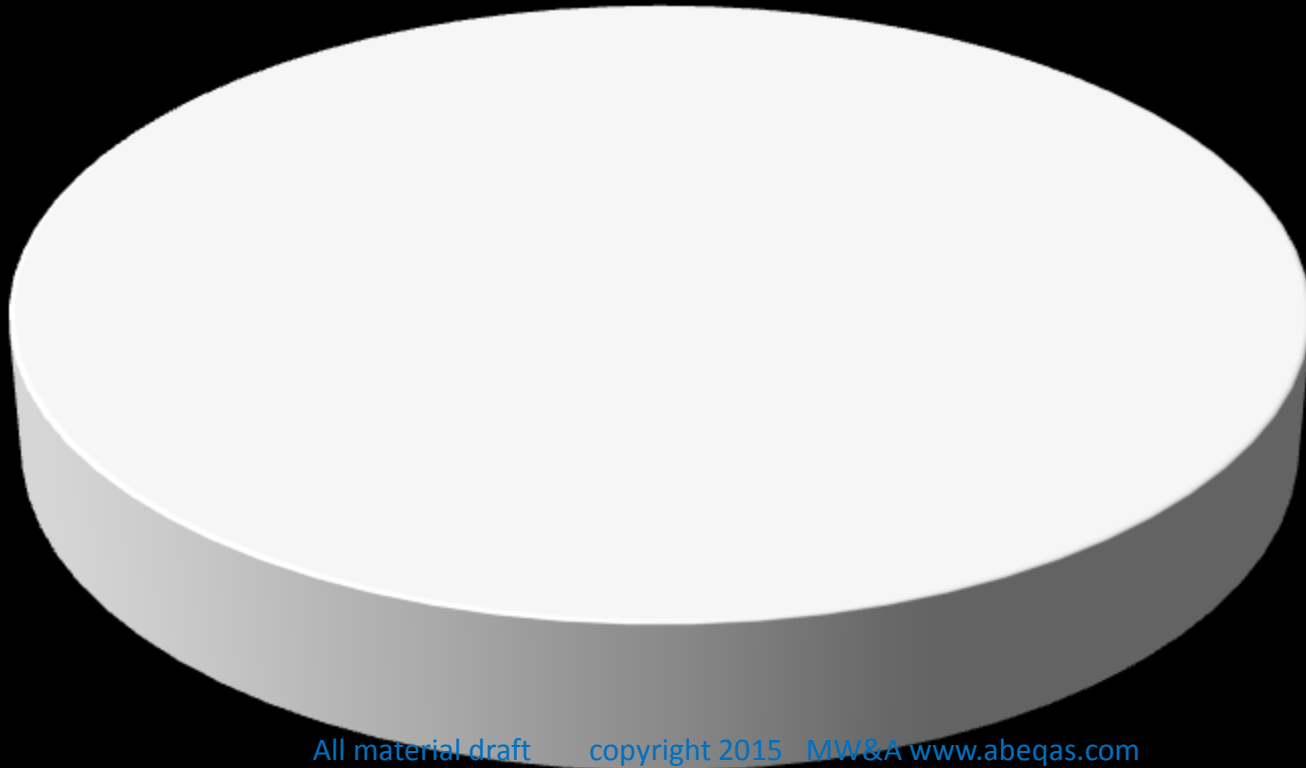

PERFORMANCE OF MW&A STREAM FLOW (10 YTA)

FORECAST EXERCISES (SKILL)

total forecasts

TARGET Q3 2014

■ Forecasts not available currently

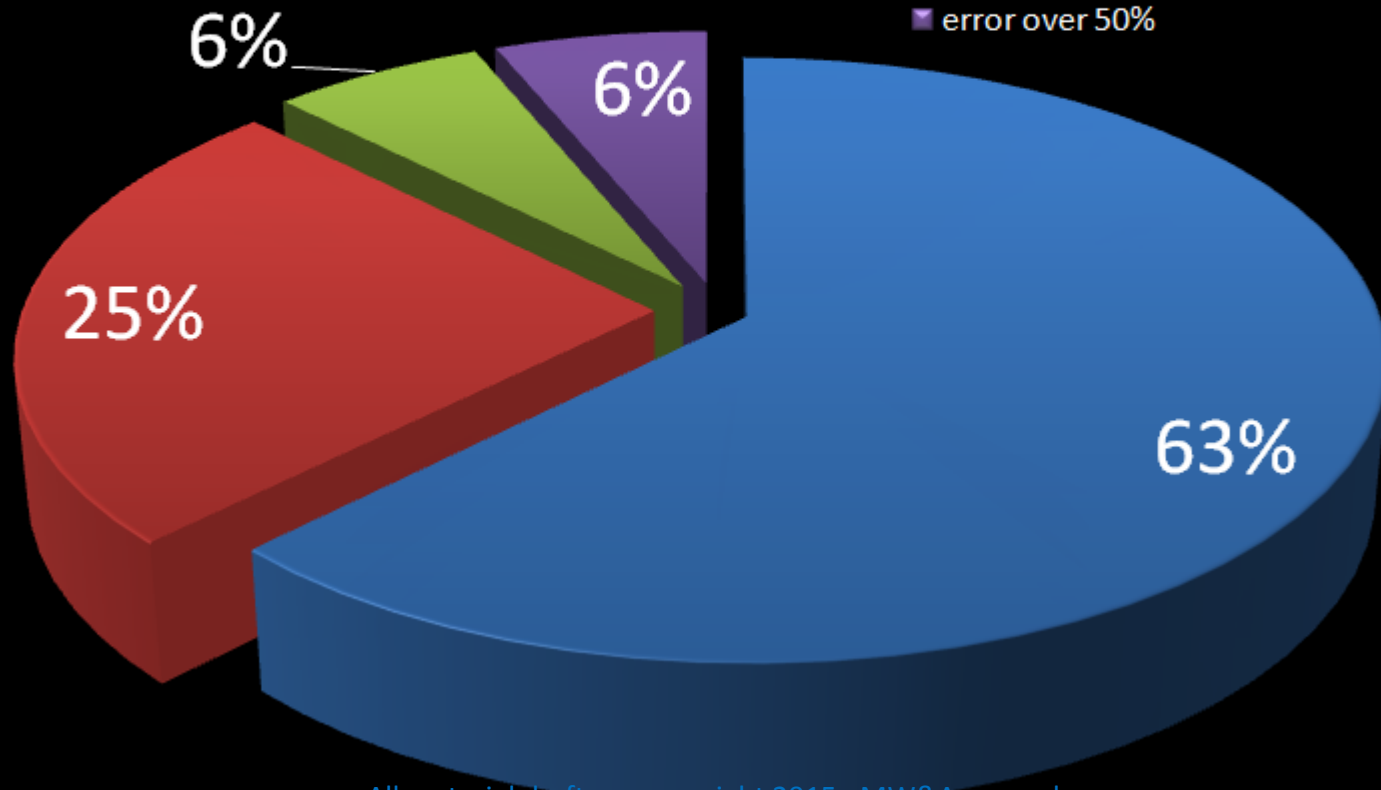

PERFORMANCE OF MW&A STREAM FLOW (10 YTA)

FORECAST EXERCISES (SKILL)

3 methods, 12 stream gages, 32 total forecasts

TARGET Q4 2014

- error under 10%
- error over 10% but under 25%
- error over 25% but under 50%
- error over 50%

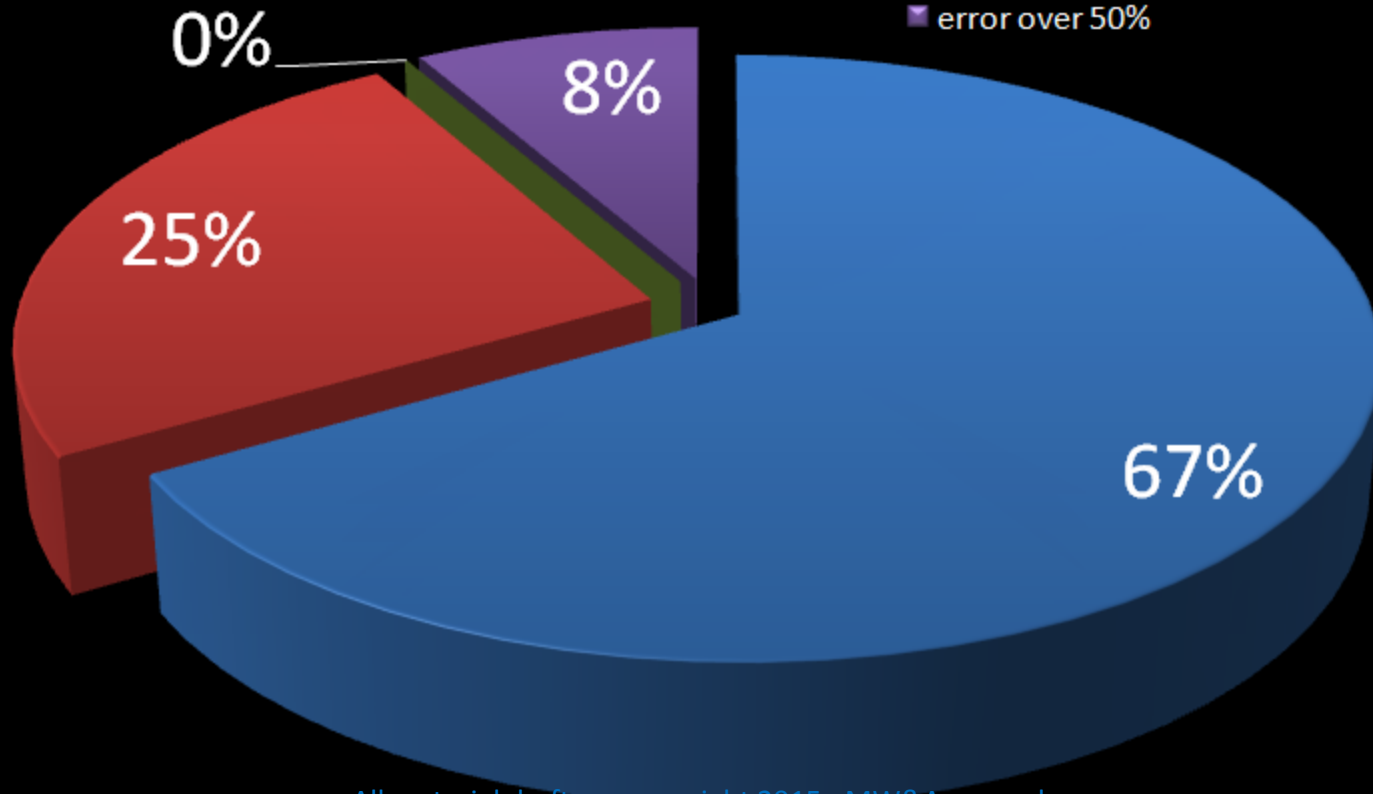

PERFORMANCE OF MW&A STREAM FLOW (10 YTA)

FORECAST EXERCISES (SKILL)

2 methods, 12 stream gages, 24 total forecasts

TARGET Q1 2015

- error under 10%
- error over 10% but under 25%
- error over 25% but under 50%
- error over 50%
